

Hygienic products are subjected to an hygienic assessment before being imported to the Russian Federation. Russian customs authorities require a sanitary-epidemiological certification. This attestation is issued by the Federal Agency of Governmental Supervision in the Field of Consumer Protection (ROSPOTREBNADZOR).

The following products require hygienic certification:

- Food and food additives
- Textiles
- Toys
- Furniture
- Crockery
- Machinery, technical products and technological equipment in contact with food, pharmaceutical products, drinking water, etc.
- Office equipment
- Domestic chemicals
- Cosmetics.

SOEX offers services to obtain the hygienic attestation.

□ Sample:

Hygienebescheinigung / Hygiene certificate / Санитарно-эпидемиологическое заключение (СЭЗ)
